

Service Pack 1

Batch Uploading

Course-to-program associations can be made using a batch file. Standards, objectives and goals can be aligned using a batch file.

Adding and modifying system data can be done with the same batch file operation.

Curriculum Maps

Curriculum Maps are now easier to navigate and edit. A warning appears to users if they attempt to navigate away from an open curriculum map before saving their work. Curriculum Maps can now be moved and copied. Comments entered in Curriculum Map cells now appear in 360° Reports.

Evaluation

The evaluation process is now much easier for users who rate artifacts and portfolios. The list of submissions now has contextual information about existing evaluations including how many evaluations there are, who last evaluated the submission, when it was last evaluated and on in progress evaluations. The Evaluate page includes the rubric directly on the page along with the artifacts being assessed.

Improvement Project Templates and Modules

Improvement Project templates can be more fully customizable, putting all aspects under users' control. Improvement Projects and Initiatives listed on Unit pages link to their respective project and initiative pages.

Moving

Users can copy and move improvement initiatives to locations to which they have permission to do so.
